Participants will divide into small groups for personalized training in the specific science and related activities of interest. Please select one content strand of interest:

Content Strand	Participant 1	Participant 2
Lunar Science		
Space Weather		
Climate Change		
Life cycle of a Star		

In addition to attending the workshop, all participants are required to implement an event or program for a middle school student audience utilizing the content learned by December 2010. This is support the NASA Administrator's Summer of Innovation plan to increase STEM awareness. Your program or event will also be subject to evaluation and documentation. Each participant will be eligible to receive a \$2000 stipend for their institution once proof is provided of the program or event completed.

Participant 1	Participant 2	
		I understand that I must implement a program and/or event utilizing the information I have obtained from attending the NASA GSFC Workshop for Museum Educators by December 2010 and for that program/event to be subjected to an evaluation.
		I have the approval of my supervisor to attend this workshop.*
		I have the support of my supervisor to design and implement a program/event based on the content from this workshop.*
		I understand I must book my own transportation to and from Greenbelt, MD and be reimbursed through the \$400 travel stipend.
